

BEE FRIENDLY®

The certification for farmers
committed to the protection of
pollinators

35%

of our food depend on
pollinators¹

90%

of flowering plants
depend on pollination¹

40%

of wild bees are
endangered²

Plan pollinisateurs (2021-2026)¹ - ITSAP²

Pollinators are essential, but are
disappearing alarmingly...

Fortunately there is a solution
The BEE FRIENDLY certification!

The protection of the
bees is largely in our hands,
and that is why we are changing
our farming practices alongside
BEE FRIENDLY!

Enhanced
biodiversity in the
farms

Approach built by
a community of
experts

The most toxic
pesticides for bees
are banned

Annual control by
an independent
organism

More dialogue
between farmers
and beekeepers

BEE FRIENDLY®

The certification for farmers committed to the protection of pollinators

All BEE FRIENDLY farmers in Europe

Fruits

Poultry

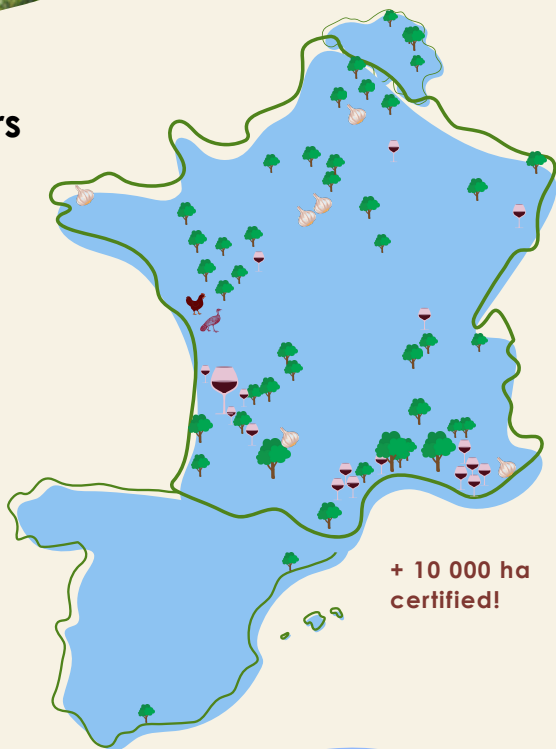

Vegetables

Wine

Find all the producers involved on our website !

MobEELize by supporting committed farmers: buy their certified products in your favorite places to shop!

+ 10 000 ha certified!

This was possible thanks to our historical farmer partners :

Nous les
VIGNERONS
DE BUZET
